

SAD FATE OF AN EDGERTON GIRL

Found Dead in a Rooming House in the City of Milwaukee.

SMOTHERED BY GAS

Made a Chance Acquaintance on the Street, Which Led to Death.

LOVER DIED WITH HER

Edgerton, Wis., March 6.—(Special)—The good people of Edgerton were astonished and horror-stricken this morning when it was learned that pretty Miss Mattie Pfeiffer, had been found dead in an obscure hotel in Milwaukee, with a young man named August Wehner. The hotel was run by M. P. Walker at 534 Market street in Milwaukee and the bodies were found at noon yesterday.

From the appearance of the bodies they had been dead for some time. The couple had been asphyxiated from gas which had escaped from the heater. Room Filled With Gas.

Wehner and Miss Pfeiffer went to the resort at about 11 o'clock Tuesday evening. Walker says that they were at that place several weeks ago and that they did not register. He assigned them to a room and paid no more attention to them. Yesterday morning when the couple did not awake, he tried to rouse them. They did not respond to his calls and the door was forced open. The room was filled with gas which had accidentally escaped from the heater, and the young couple were dead. The police and coroner were summoned.

Two letters were found in the dead man's pockets addressed to Gustav Wehner, 520 Cass street, where Wehner roomed. They indicated that he was employed for the Universal Publishing company of Chicago. Inquiry during the day developed the fact that his parents lived in Petoskey and that he had a brother in Appleton.

Began to Go Wrong.

The young woman went to Milwaukee six months ago to take a course in the Cream City college and boarded with the Sisters of Mercy on Sycamore street. About a month ago she remained away all night and the next day she told the sisters that she had been with a lady friend. Investigation showed she had not been there and the sisters wrote her parents and asked them to take away the girl, as they could not board her any longer. The parents asked the sisters to keep her until Easter, when she would be taken home, as her course in college would be completed.

Tuesday night Wehner called for the girl and asked permission to take her to the theater. He promised that she would be back by 10:45 o'clock, but the girl was never seen again at the home.

How Acquaintance Begun.

Wehner, who has obtained his meals for a long time at a restaurant on Sycamore street, noticed the young girl going to and from the business college, as she usually walked past the restaurant. Finally about a month ago, it is said, the young man spoke to her as she was walking with a companion, and an acquaintance soon sprang up between the two.

William G. Pfeiffer is well-known in this city. He is a carpenter and contractor, an honest and industrious man and he and his wife have the sympathy and confidence of the whole community in their terrible affliction. Mr. Pfeiffer went to Milwaukee this morning and will bring the remains of his unfortunate home for burial. It is supposed that the asphyxiation was an accident.

The young woman was well-known in this town. She was a handsome, happy girl 18 years old and her sad fate causes sorrow here. She leaves a sister about 8 years old.

MAY CHANGE DATE OF THE STATE FAIR

Board Cannot Agree with the Yahr Market People—Madison Also Wants the Fair.

Madison, Wis., March 6.—The state board of agriculture in session here has the next state fair under discussion. It developed that the week of September 23 to October 1 was "open"—that is no big state fair is scheduled for that week—and it was suggested that that week be selected for the Wisconsin fair. The suggestion seemed to meet with considerable favor and it is not impossible that that week if the Yahr Market people insist on holding their show during the week of September 8 to 12, it also developed during the discussion that Madison stood ready to contribute \$15,000 if the next fair were held here. Other large cities have also put in bids for it. It is not probable, however, that the fair will be removed from Milwaukee this year.

Heavy Fog in London.

London, March 6.—The city is completely fog bound today. Traffic is demoralized and a number of accidents are reported. The fog spread over the English channel and many steamers are hours overdue.

PUNISH CRUELTY TO THE FILIPINOS

Torture of Native Prisoners Ends in Court Martial for Two United States Army Officers.

Manila, March 6.—Maj. Waller and Lieut. Day of the Marine corps will be court-martialed on March 17. They are charged with torturing Filipinos and executing others without trial in the island of Samar. Waller and his marines did good work in Samar after the massacre of a part of a company of the Ninth Infantry.

One of the accusations against the officers is that they tied a Filipino to a tree and shot him in the thigh; the next day the prisoner, who had been allowed to remain bound to a tree, was shot in the arms. A bullet in the head of the unfortunate was the punishment on the third day. The fourth day he was put to death. The friends of the officers claim if the charges are true the accused men must have been temporarily deranged by the sufferings endured in Samar.

COUNTRY EDITORS ARE IN SESSION

President Luckow Gives the Visiting Scribes at Milwaukee Some Good Advice.

Milwaukee, March 6.—Country editors, their wives and daughters, are as thick in Milwaukee today as politicians in convention time, the occasion being the annual meeting of the Wisconsin State association, which opened its sessions in the hall of the Merchants' and Manufacturers' association yesterday afternoon. A welcoming address was delivered by Mayor Rose, and there was a short speech by former Governor George W. Peck. President Luckow, in his annual address, advocated more attention to the amenities of life and less attention to the attempts to get even with the other fellow. He said:

"Why bear a feeling of hatred toward your neighbor simply because he happens to be engaged in the same line of work, when perhaps he is entitled to your sympathy? Nothing can be gained by abusing your esteemed contemporary."

"Did you ever gain anything by heaping abuse upon your neighbor? No. Did you ever profit by doing work less than a living rate simply to prevent the 'other fellow' from getting the work? No. Then no good reason can be given for pursuing such methods. Editors can and must enter into discussions, but they should be carried on in such a way that the readers will not become disgusted."

"Don't endeavor to convince the public that newspaper people are the worst persons on earth, for in your own heart you feel that they are not. While your neighbors may have faults just bear in mind that you too are not infallible."

The aim of the association, Mr. Luckow said, was to promote good fellowship among the members of the press of the state. By attending the meetings of the association the publishers cultivate sociability, become broader and grow in better condition to take up the round of daily toil. The sessions will be continued until tomorrow.

VETERINARIANS AT MADISON TODAY

Dr. F. J. Roub of Monroe, Elected President of the State Society at Semi-Annual Meeting.

Madison, Wis., March 6.—The semi-annual meeting of the Wisconsin society of Veterinary Graduates was held in the capitol yesterday afternoon and evening. Fifteen members being present. At the afternoon session Dr. F. J. Roub read a paper on the poisoning of a herd of cattle by wild mustard. The following officers were elected: President, Dr. F. J. Roub, Monroe; vice president, Dr. R. S. Heer, Plattville; secretary, Dr. S. Beattie, Madison; treasurer, Dr. S. S. Snyder, Cedarburg.

QUAKE IN KENTUCKY

Owingsville, Ky., March 6.—A distinct shock, believed to have been an earthquake, was felt here. The old-fashioned doorbells that are attached to springs jingled until numerous housewives went to their doors, believing someone was ringing. The dishes in the cupboards rattled and some were thrown from their shelves.

STRIKE AT NORFOLK IS STILL SERIOUS

Norfolk, Va., March 6.—The strike among the street car men and light and electric power plants is as far from settled this morning as ever. The situation is growing more serious all the time. The militia patrol the streets. A number of women were arrested on placing the rocks on the tracks.

WILL KEEP OUT OF CUBAN SUGAR WAR

Washington, March 6.—President Roosevelt has decided to keep out of the Cuban sugar fight. It is authoritatively announced that he will send no message to congress unless the latter should fail to take any action in behalf of the island. As long as there is a chance that congress will do something he will not interfere.

BOSTON HONORS GERMAN PRINCE

Hub Greets Him with a Grand Welcome on His Arrival.

PROGRAM OF TODAY

Germany Feels Relieved Because the Jaunt of the Prince is Nearly Over.

SEES NIAGARA FALLS

Boston, March 6.—Prince Henry arrived here this morning at ten o'clock. He was greeted at the depot by a committee headed by Mayor Collins. The royal visitor seemed to show no sign of weariness over his long trip. The party was immediately driven to the Hotel Somers.

The program for this afternoon and evening is as follows: Meets mayor, governor, president of Harvard and others; Short drive with stop at statehouse to return governor's call; Visit to Shaw memorial; Drive to public library to return call of Mayor; Visit to Cambridge; Luncheon at Harvard; Entertainment by Harvard union; Reception of delegates of the Germanic Museum association; Return to Boston; Dinner with city authorities; Leave Boston 2 a. m. (Friday.)

At the hotel the Prince was officially welcomed by Mayor Collins and Gov. Crane. The corridors were crowded with the elite of the city who greeted the Prince with cheers. Leaving the hotel the Prince and party drove to the State house to return the governor's call.

Berlin Glad Trip is Over.

Berlin, March 6.—Relief is felt here that the trip of Prince Henry through the United States is now drawing to a close without any untoward incident for, notwithstanding Emperor William's entire confidence as to the safety of Prince Henry, others in authority have had misgivings that some Polish fanatic in Chicago, wrought up over the conflicts and national feeling in Polish Prussia, might attempt something violent.

The prestige of Prince Henry has been immensely increased in Germany by the impression he has made upon the Americans. His behavior in the United States is looked upon here as natural, dignified and happily adapted to the character of the Americans. After his return home the Prince will probably be entrusted with a larger share in public affairs, the impression being that Emperor William will find something else of first importance for him to do.

Prince Sees Niagara Falls.

Rochester, N. Y., March 6.—Prince Henry traveled from Chicago to Niagara Falls, crossed the Canadian frontier for a brief stay, during which he was officially welcomed by the Dominion, and resumed his journey, bound for Boston. His longest stop in almost thirty hours of continuous traveling was at Niagara Falls, which he saw bridged with ice. He viewed the horseshoe falls from Table Rock, the American Falls from the ledge over the whirlpool on the Canadian shore, rode down the gorge to a point below the lower whirlpool, and there inspected the plant of the Niagara Power company. He was much impressed by the falls, and as he stood on Table Rock, looking across at the Horseshoe, he said: "It is magnificent; it is grand." He was much impressed also by the swirling rapids down in the gorge, and when he left his car at the whirlpool he stood for several minutes watching the tumbling of the waters.

PROMOTION FOR GEN. MAC ARTHUR

Wisconsin Soldier Will Take Command of Department of the Lakes at Chicago.

Chicago, March 6.—Major General Arthur MacArthur, now commanding the Department of Colorado of the United States army, with headquarters at Denver, will succeed Major General Elwell S. Otis in command of the department of the lakes on March 24. General Otis retires at that time on account of age. His successor returned from the Philippines last August, where he had been in command of the army operating against the insurgents.

Demands a Jury Trial

The case of the state of Wisconsin against James Quinn of Beloit charged with holding-up C. G. Moller in Beloit on February 19, 1902, and taking \$5 away from him was called in the municipal court this morning. Quinn pleaded not guilty to the information filed against him by District Attorney Jackson and demanded a jury trial. He stated to the court that he had no money to hire counsel and the court appointed W. O. Newhouse to defend him. A jury was drawn this morning and the venire was made returnable at 9 o'clock tomorrow morning. District Attorney W. A. Jackson appears for the state.

Thomas Clark, a former Janesville boy, who is now in the employ of the Holden Shoe Co., on State street, Chicago, left for the latter city this noon, after having spent three weeks with local relatives.

THE STATE SENDS OUT WARNING

List of "Wild Cat" Insurance Companies Operating in Wisconsin.

VIOLATION OF LAW

Companies Not Licensed, and Yet Are Attempting to Do Business.

ADVICE TO CITIZENS

Madison, Wis., March 6.—(Special)—Insurance Commissioner Emil Giljohann today issued the following letter of warning to the public concerning the operations of so-called "wild cat" insurance companies in the state: "I take this opportunity of warning the citizens of this state, that a great many fire insurance companies are operating in Wisconsin without any authority, and in direct violation of our laws."

"Inquiries are being received at the insurance department nearly every day about companies that are not licensed and yet are attempting to do business."

"The companies know that a contract of insurance made with them is illegal, and if the policy holder should have a loss, he would have no standing in the courts of Wisconsin to enforce payment, yet many of our citizens, some of whom are considered good business men, will, for a seemingly small discount, take contracts that are illegal and void under our laws and in companies that have no assets and are defrauding their state."

"The citizen who places insurance in these non-licensed companies is as guilty as the company, and makes himself liable to the authorities of any city or village, maintaining a regularly organized fire department, for taxes due them for the maintenance of such department. The agent who solicits or aids in placing insurance in these unauthorized companies, makes himself personally liable to the insured, should there be a loss and the company refuse to pay, but an agent who would represent a 'wild cat' company is, as a rule, irresponsible and a judgment against such an agent would be worthless."

"Among the companies reported as doing or seeking to do business in this state without a license from this department are the following:

- The Germania Fire Insurance company of Chicago, Ill.
- The National Insurance and Investment company, Chicago, Ill.
- The Pacific State Insurance company of Chicago, Ill.
- The Lincoln Insurance and Banking company of Indiana.
- The Security Fire and Marine Insurance company, Washington, D. C.
- The Commonwealth Savings and Insurance company, Richmond, Va.
- The Commonwealth Insurance company, Chicago, Ill.
- The Great Britain Insurance corporation of London, England.
- The Northern Fire Insurance company of Chicago, Ill.
- The Commercial Insurance company of Indiana.
- The Mercantile Fire Insurance company of Chicago, Ill.
- The Western Fire, Marine and Plate-Glass Insurance company, Chicago, Ill.
- The Inter-Ocean Fire Insurance company, Chicago, Ill.
- The Star Fire and Burglary Insurance company, Glasgow, Scotland.
- The Union Fire Insurance company, Chicago, Ill.
- The Amazon Insurance company, Charleston, W. Va.
- The Dairy Mutual Insurance company, Lisbon, Iowa.

AN EPIDEMIC OF HYDROPHOBIA

Many Trempealeau County People Said to Be Affected with a Strange Disease.

La Crosse, Wis., March 6.—Word was brought to this city today, of what is called an epidemic of hydrophobia in Trempealeau county and particularly in the vicinity of the village of Trempealeau. Several persons, both men and women, have been taken with the disease and others are said to be going mad. The first case was reported a week ago and was that of the Galesville marshal, who was bitten by an unknown man whom he had placed under arrest. The marshal went mad and is now in an insane asylum.

PETER DRAHFAL MAKES A HAUL

Arrests Two Men Caught Fishing with Set Lines in Lake Koshkonong.

Madison, Wis., March 6.—(Special)—Deputy Game Warden Peter Drahfal brought John Walther and Geo. Wesendonk here today under arrest for fishing with set lines in the part of Lake Koshkonong which extends into Dane county. They pleaded guilty in the municipal court this afternoon and were fined \$25 each.

Big Fire at Plainfield, N. J.

Plainfield, N. J., March 6.—The Babcock block and the Seibing building, two of the largest business structures here, burned this morning. Loss a quarter of a million dollars.

Miss Elsie Wellworth has returned from a visit in Milwaukee.

WILL HAVE PLENTY OF EASTER EGGS

Danger Past That There Will Be a Famine—The Prices Will Drop From Now On.

With the drop in the price of eggs yesterday, and reports of increasing receipts from all large market centers the country, the danger of an egg famine at Easter time, when millions of eggs are used for decorative purposes, is past and produce men say that from now on the supply will increase daily and prices will drop accordingly. Eggs dropped two cents yesterday on each dozen, and this with the drop in price on Tuesday, brings the decline to 4 cents, which is greatly appreciated by the housewife. Butter is holding up in price fairly well as the supply does not greatly exceed the demand. The weather conditions however point to a drop of a few cents per pound within a very few days.

GOVERNOR HAS MANY CALLERS

He Has Nothing to Say on Politics—Feels as Well as He Ever Did in His Life.

Milwaukee, March 6.—Governor La Follette spent the greater part of yesterday at the Plankinton house, where he received many callers. His rooms were crowded all the afternoon. "I have nothing to say on politics," said the governor. "There is no use of you boys trying to interview me at this time. Health? Oh, yes. I have gained thirty-five pounds during the last few months and I am feeling as well as I ever felt in my life. The way I have picked up has been a surprise to me. I did not think it possible that a man could gain flesh and strength on six slices of 'zweibach' with nut butter and two glasses of milk divided into three meals. It was put on this diet when I was ill and I found that it did me so much good that I decided to adhere to it. I do not have to stick to it now, but as long as I am doing well, I see no reason to change. I never felt better."

F. W. HOARD IS SERIOUSLY ILL

He Was Taken to Chicago Last Night on a Special Train, for an Operation.

F. W. Hoard, son of ex-Governor W. D. Hoard, of Fort Atkinson and business manager of Hoard's Dairyman, who has been seriously ill at his home in Fort Atkinson, with an attack of appendicitis, was taken to Chicago last night on a special train, where he will undergo an operation. Mr. Hoard had a severe attack yesterday and it was decided that the only chance to save his life was to have him taken to Chicago at once and have an operation performed.

A special consisting of a combination coach and engine were ordered from the Northwestern to make the trip. The special was in charge of Conductor Richard H. Tregonlin and left here at 6:25 last evening for Fort Atkinson where the sick man was taken aboard and the run for Chicago begun. They arrived here at 7:40 and the run from this city to Chicago was made in quick time.

BRYAN AGAINST HILL

He Will Fight Any Presidential Candidate Who Was Against Him in 1896.

Lincoln, Neb., March 6.—Bryan, in the latest issue of the Commoner, goes 1,200 words strong against David B. Hill, or any other man who opposed the editor in 1896, who may be urged for the presidential nomination in 1904. His editorial strongly infers that he will lead a fight against such a candidate.

FORTUNE FALLS TO HENRY C. ADAMS

Madison, Wis., March 6.—(Special)—Dairy and Food Commissioner H. C. Adams is sole heir to an estate of about twenty thousand dollars left by his father, Benjamin F. Adams, who died about a month ago. The will was filed for probate today.

ORDERS MOULDERS BACK TO WORK

Beloit, Wis., March 6.—The Molders Union, 120 strong, which struck from the Fairbanks, Morse & Co. shops about two weeks ago has been turned down hard by the National delegate who arrived here this morning. He ordered them all back to work and said they had no authority to walk out. In the meanwhile about seventy-five of the strikers have left town and left the company in bad shape.

Carter-Perkins Marriage.

Word has been received in this city announcing the marriage of Miriam Clinton Carter, daughter of Mr. and Mrs. Charles G. Carter, of Milwaukee, to Dr. Robert Sanford Perkins of Milwaukee. The wedding took place in Milwaukee, March 3, 1902. Miss Carter is quite well-known here her father being a son of the late A. M. Carter of this city. Her father was a resident here many years ago and has a large circle of friends and acquaintances.

GAME WARDENS ARE KEPT BUSY

Close Watch Being Made on Spring Fishing and Shooting.

NO SNOW IN WOODS

Indians Have No Chance to Kill Deer by Following Them on Crust.

LAKE PEPIN'S FRACAS

Madison, Wis., March 6.—(Special)—Over \$500 in fines for violation of the fish and game laws has been collected in the state thus far this year and turned over to the school fund. There were 31 arrests in January and 18 in Feb., convictions being secured in all but a few cases. Of the 31 persons arrested in January, 18 pleaded in all but a few cases. Of the 31 four were discharged and one had fine remitted and two were acquitted on jury trial. The fines collected in January amounted in all to \$358, and in February to \$155.

Offenses in Detail.

Of the 49 offenses, sixteen were illegal fishing, ten killing deer, eight having underweight whitefish, four hunting rabbits with ferret, three having venison in possession, one each for having deer hide in the red, breaking into barn to steal venison, destroying muskrat houses, killing grouse, shooting duck, and falsely labeling shipment.

Game Warden Overbeck has received a letter from Deputy Oberholzer of Eagle River stating that the snow is now gone in the woods, and with it the best chances of the Indians for killing deer, by following them on the crust. The wardens have been notified to keep a close watch for spring fishing and shooting and a warden will be stationed on each of the principal lakes in the state.

Fracas at Lake Pepin.

In view of the recent fracas on Lake Pepin, where the fishermen denied the jurisdiction of the Minnesota wardens, and stood them off with rifles, Game Warden Overbeck asked Attorney General Hicks for an opinion in the matter, and the latter has complied with the request as follows:

"The fish laws of the state of Wisconsin are made to apply to all the inland waters and to certain outlying waters of the state, but not to the waters of Lake Pepin. Therefore I conclude that the fish laws of the state of Wisconsin are not applicable to the waters, nor the fish contained in the waters of Lake Pepin."

"There being no fish laws of the state of Wisconsin applicable to the waters of Lake Pepin, it follows that no fish wardens of the state of Wisconsin have jurisdiction on those waters. The state of Wisconsin and the state of Minnesota have concurrent jurisdiction over the entire waters of Lake Pepin."

TOLSTOI MAYBE DEAD

Reported That Russian Government Suppressed News, Fearing an Uprising.

New York, March 6.—The Telegram publishes the following today: "A lawyer of this city made public a portion of a letter, which he has just received from a relative in Russia, in which the statement is made that Count Tolstol, the great Russian novelist and philanthropist, died on Feb. 15 last, at Yalta, in Crimea. 'The lawyer does not want his name published for fear the source of the letter could be traced and trouble made for the relative by the Russian government. The portion of the letter referring to the count is as follows: 'Tolstol is dead. The papers write nothing about it, but we know it indirectly here. Great tumults are expected in Russia and there are rumors of a revolution.'"

2,400 IMMIGRANTS ON BOARD STEAMER

The Rhein Carries Largest Number for More Than Ten Years.

Berlin, March 6.—The North German Lloyd steamer Rhein, which sailed from Bremerhaven for New York on March 2, breaks the immigrant record. She has no less than 2,400 emigrants on board, mostly Russian and Austrians. Since 1891 no steamer has carried such a large number.

FEARS FOR THE LINER ETRURIA

It is Feared That the Tow Lines Snapped, and She is Again Drifting Helplessly.

New York, March 6.—The disabled Curand liner had not been heard from up to ten o'clock this morning. It is feared that the tow lines between the Etruria and Steamer Cliff, which was reported hauling her toward the Azores, parted and the big liner is again drifting about helplessly. The great snow storm has ceased and traffic is generally resumed.

Some Farm Notes.

The spring is approaching and the farmer does not know what to look for. He has no knowledge and no way of finding out whether it is going to be a season of drought, frost, flood, or insect ravages, serious plant and animal diseases, or varied accidents that are likely to occur. He probably knows he will have to meet more or less unjust taxation and will have to look after the middleman to some extent. He will be required to do his very best under the circumstances.

It is not too late to trim grape vines. From the middle to the last of February is the best time, but it can be done almost any time before the buds swell and start, when the wood will bleed." I usually cut to three buds of the new growth.

If the soil is too wet for the use of the disc harrow, I would rather wait a day or two and then put on plenty of power on the tongue of the disc and then weight it down. A sharp disc, four good horses and the ground fairly dry are conditions that will result in the best work. A sharp disc well weighted will act as a stalk cutter if the ground is in the right condition.

Clean seed, bright, sharp tools, plenty of teams and an industrious farmer make a combination that is calculated to do good work in putting in spring grain as it should be. If the yield does not then prove good it will have to be attributed to other causes.

At one time in my life it was my ambition to own a cow with brass knobs on her horns. At that time a man would have gotten himself into trouble very quick if he had dehorned his cows. Now instead of putting on knobs, the horns are sawed off. Dehorned cattle need no knobs. A cow does not look so "nobby" without the horns, but her neighbors are more comfortable by reason of it.

One variety of corn will mix with another very readily because the pollen mixes and thus they are changed. Every thread of silk must be touched with pollen as there is a thread for each grain. A neighbor of mine says he gets it more abundantly by mixing two varieties of seed together, one a late and another an early variety. This is a theory that looks all right.

The leaves of a plant may be said to be its lungs. By the roots water is taken from the soil laden with plant food that comes from the soil. With the plant food in the water taken up by the roots and the carbon taken from the air by the leaves, the living plants go to work to prepare food for its own sustenance by building cells or walls known as fibre. The surplus over what the plant itself needs for its existence, forms what man and animals need for food.

It is claimed that the San Jose scale came from China in the vicinity south of the Great Wall. There is said to be a species of lady bug there which feasts on it and some of them have been imported to this country to be propagated for the purpose of exterminating it.

An eastern farmer visited some Farmers' Institute in the West and was so much impressed with them, that he gave out the following when he returned home: "Agriculture is the wealth maker in the West. The far-

mer spring, as a whole, in a different relation to the state and society than in the East, the other fellow is it." "What we need to realize is that we are the people who are living next to nature and that we need not be ashamed of our calling. We are entitled to the seat of honor, and we should occupy the place to which we are entitled.

Select the first pleasant day to oil the harness. Wash free from gum and dirt before oiling. But very little oil should be put on the lines where they can be reached by the hands. The life of other parts of the harness can be greatly prolonged by keeping them well oiled.

But few people care to feed a calf sour milk and yet the process of souring is one that has taken place in the calf's stomach before digestion can be accomplished. Many years ago people were not so much afraid of feeding calves sour milk as they are now. The trouble with a good deal of the sour milk of this day is that when it sours in milk cans it contains ptomaine and other poisons injurious to calves. A cow does not feed her calf sour milk, neither does she feed it skimmed milk.

The productiveness of any farm can be increased by keeping as much live stock on it as it will carry. Sheep are admirably adapted to this business. The hog is the poorest distributor of fertility of any kind of stock. This is because it consumes more concentrated food than other kinds of stock.

There is almost always more than one way of looking at things. One man will tile drain a pond to get rid of the water in summer and get rid of it in winter. As a rule, the farmer who has the pond and does not need it, has plenty of stock water without a pond. The sub-soil does not always have that tenacity necessary for a pond in all localities. I have learned to look upon a pond as the outgrowth of conditions.

The gasoline engine is fast becoming a feature on the farm. The more one knows about them and what they can do, the better they are liked.

Grains of various kinds are filled with a substance that will keep indefinitely while dry. This is in the form of starch and oil. Sugar will not keep. When a seed is placed in the ground and become moist and warm, the seed germinates. A fermentation takes place that converts the starch into glucose which can be used by the plant for living food and for building up its structure until green leaves and roots are formed to begin absorbing the plant food from the soil. While the grain remains dry the living matter will be dormant, waiting for the coming of water at a proper temperature. Some seeds lose their vitality when they become entirely dry and others retain their vitality for one or more years and will grow as soon as the proper conditions of moisture, heat and air are present.

Seed corn is abnormally high and scarce. There is enough seed corn to supply that need but the reason it appears scarce is that the buyer and seller are somewhat distant from each other. It will pay to advertise seed corn and it will pay those who have it to get it early.—Wisconsin Farmer.

Wit and Wisdom From New Books. Compiled by The Era.

Life is a wheel and nature moves in circles, passing the same points again and again, the points being distant or near to the sense as the course of life have influenced the nature.—The Right of Way.

Discontent is a good thing. It makes us go, as fuel does the locomotive; but, overcharged with it, we do nothing but sizzle and smoke.—Musings by Camp-Fire and Wayside.

A light pocket is a plague, but a

light heart and a light love make amends for much.—If I Were King.

There is no such consolation to a born coward as a logical reason for not doing what he is afraid to do.—Marketta, a Maid of Venice.

A book may be a perpetual companion. Friends come and go, but the book may beguile all experiences and enchant all hours.—The World Beautiful in Books.

Outings are supposed to be appropriate only for men, but women should go more than men they need to break the monotony of life squarely off.

Who ever heard of a Diana ever suffering from nervous prostration, or a Salad sending a satyr post-haste for Hippocrates?—Musings by Camp-Fire and Wayside.

People are great in the eyes of the people, but people are great in the eyes of God.—If I Were King.

A woman never does care for her own soul so much as she cares for the man she loves. But if she is good she cares for his soul more than for her happiness, or even than for his happiness.—The Allen.

Fortunately, the best things in life are not purchasable; they would not be best things if they were.—Musings by Camp-Fire and Wayside.

He read family prayers in measured exhortatory tones, as though giving the Almighty His orders for the day.—Casting of Nets.

A word or phrase which is as common and familiar as our hand may, in some minute of time, take on a significance and present a face so keen and strange that it is as if we had never met it before.—Audrey.

Reactionary ideas are very seldom put into practice by those who advocate them.—Casting of Nets.

Good women don't understand sinners, and bad ones don't help 'em.—The Allen.

Homeseekers' Excursions to California Via C. & N. W. R. R., March 18, April 1 and 5, May 6 and 20, 1902.

On above dates the C. & N. W. R. R. will sell homeseekers' tickets to California at rate of one fare plus \$2 for round trip. Stop-overs allowed on going trip, and privilege of diverse routes. For further information see ticket agent C. & N. W. passenger depot. Telephone No. 35.

\$14.00 to Points in Minnesota, North Dakota and South Dakota Via C. & N. W. R. R. On March 11, 18 and 25; April 1 and

8, the C. & N. W. R. R. will sell one way settlers' tickets at above rate to all points in territory above mentioned to which regular selling rate is higher. For full particulars see ticket agent C. & N. W. R. passenger depot. Telephone No. 35.

JANESVILLE MARKET PRICES

"I hobbled into Mr. Chamberlain's drug store one evening," says Wesley Nelson of Hamilton, Ga., "and he asked me to try Chamberlain's Pain Balm for rheumatism with which I had suffered for a long time. I told him I had no faith in any medicine as they all failed. He said: 'Well, if Chamberlain's Pain Balm does not help you, you need not pay for it.' I took a bottle of it home and used it according to the directions and in one week I was cured, and have not since been troubled with rheumatism." Sold by all druggists.

FINE PROGRAM TO CLOSE THE COURSE

Mozart Symphony Club Gave an Excellent Performance at Night.

One of the finest musical programs ever given in Janesville was rendered before a large audience at the Congregational church last evening by the Mozart Symphony club, of New York. The event was the closing number of a series of fine lectures and concerts given by the People's Lecture course, a most fitting close to a very interesting course.

The Mozart Symphony club consists of a quartet of musical artists of par excellence. This is their eleventh season on the road, which of itself is ample evidence of their popularity. To single out one as the best would be most difficult. The program was varied and contained numbers calculated to please the most fastidious listeners.

Miss Marie Stori is a young artist of high rank with a dramatic soprano voice, remarkable for breadth, fullness of tone and sweetness. She is equally skilled as a performer on the violin. Her every part was pleasingly rendered. In her violin solo "Birds in a Tree" and soprano solo, she was especially pleasing and received warm applause, which she graciously responded to.

Mr. Mario Blodock is a magnificent performer on the cello and the violin. He has been playing the violin since he was a child. The latter instrument was invented in the seventeenth century by an English prisoner. It has ten strings and is between a violin and a viola in size. Mr. Blodock is the only artist playing this instrument in the United States.

Herr Theodor Hoch, as a performer on the cornet, Alpine Echo horn and Roman Trumpet takes front rank. His playing on the cornet was notable for his excellent double and triple tonguing, the tone being powerful, without being coarse. His work with the Alpine Echo horn was especially pleasing, one portion of the double instrument repeating or modifying in gentle, far away tones, giving it the echo sound. Herr Hoch is also a performer of considerable merit on the Roman trumpet, an instrument never seen in Janesville. He has a jolly way about him that caused a ripple of mirth to spread through the entire audience.

Mr. Richard Stoelzer as a performer on the violin and violin d'Armour is by far the most versatile musical artist that has visited this city in a long time, and he richly deserved the hearty applause he received. The violin d'Armour is an instrument of fourteen strings and was used two hundred years ago. The tone is similar to that of the viola but is more expressive in sweetness and power, which gives it the name viola of love. Seven of the strings are used in bowing, the balance being directly under the original seven and vibrate in unison. It is the largest instrument held under the chin. Mr. Stoelzer's violin d'Armour was made by Vincenzo Rugerdt Toll Pes, Crmona, in 1690 and the back is perfectly flat.

One of the most pleasing numbers rendered by Mr. Stoelzer was a descriptive fantasia "In the Clock Store" by Orth. The apprentice opens the store in the morning and winds up the different clocks the ticking of which was illustrated by the music, which gradually developed into a musical lullaby of a clock store. The cuckoo clock strikes the hour, the deep sound of another clock is heard, the alarm clock rattles merrily, followed by another clock striking in harmony with the music. The apprentice whistles a little tune, the clock that contains the chimes gradually runs down and stops. It is wound again and the chimes of a Scotch cathedral are heard in the distance. The neighboring clock strikes the hour and the clocks are all running smoothly when a sleighing party passes the window and the boy closes the store.

The hope was expressed by hundreds last night that the Mozart Symphony club might come to this city again.

NEWS AND GOSSIP FROM LINE CITY

James Kelso, an Insurance Agent Has Decamped with the Wife of O'Neil, a Paper Mill Employee.

Bell, Wis., March 6.—James Kelso, who has been agent of the Prudential Insurance company in this city for over a year, has decamped with the wife of one O'Neil, an employee of the Barrett Paper mills, leaving his own wife almost entirely penniless. Warrants are out for the arrest of both, but it is feared that they have left this section of the country. Kelso was an exemplary man and his books and accounts are straight as a string.

The annual parish supper of the First Congregational church and the annual reception of the West Side Monday club were two social events which many Beloiters attended Tuesday evening.

Ray North, a son of former city marshal, Chris. North, and the deputy oil inspector for this district, is holding down a job on the force, pending the investigation of the conduct of Officer Walrod who has been summoned to appear before the Board of Police and Fire Commissioners on Thursday morning and show cause why he should not be discharged. He is charged with stealing.

There are about thirty-five Beloiters, who are on the anxious seat just now because of the reported "blowing-up" of the various diamond savings companies over the country. The local people are in a Minneapolis concern and it is said that a number of Janesville people are also investors in the same company which is called the Fontaine Diamond Savings Association.

Mrs. P. H. Hersey, one of the original Talcott family who settled in Rockton in 1835 celebrated her eightieth birthday at her home on Church street Tuesday. Mr. E. Coffin celebrated his eighty-fifth birthday Wednesday.

The first wealth is health. Health depends largely on the liver, and the liver is good liver is quickly cured by Dr. Crane's Quaker Tonic Tablets. The perfection of purity in medicine, kidneys, headaches and constipation. In all the world no cure so sure. All drug stores, fifty cents.

Chamberlain's Pain Balm applied to a cut, bruise, burn, scald or like injury will instantly allay the pain and will heal the parts in less time than any other treatment. Unless the injury is very severe it will not leave a scar. Pain Balm also cures rheumatism, sprains, swellings and lameness. For sale by all druggists.

AMUSEMENT NOTES.

A theatrical announcement which will be gratifying, no doubt to lovers of musical comedy and theatre goes in general, is the coming to this city on March 12, of the highly successful comedy opera, "King Dodo." This merry old sovereign held sway in Chicago at the Studebaker Theatre throughout the entire past summer, and up to October 5, and is credited with the longest run ever recorded in theatricals in the western metropolises.

Beautifully gowned young and pretty women, in rich and costly costumes of new and fetching design, are among the promised features of the performance at the Myers Grand, Tuesday, March 18, of "When Rembrandt Comes to Town." The company carries its own scenery and the entire production is said to be of Metropolitan character, in point of lavish display.

When you want a physic that is mild and gentle easy to take and pleasant in effect use Chamberlain's Stomach and Liver Tablets. Price, 25 cents. Samples free. Every box guaranteed. For sale by all druggists.

John H. Garrett and F. Herbert Browning, secretary and treasurer of the Idaho Beet Sugar company, are in the city on company business.

Dyspepsia

Is difficult digestion, due to a weakened condition of the stomach and its inability to properly churn the food; or to unhealthy condition of the gastric juice, too much or too little acid, too much or too little pepsin.

Hood's Sarsaparilla relieves all the distressing symptoms of dyspepsia because it promotes the muscular action of the stomach and intestines, aids nature in the manufacture of her own digestive secretions, which are far better than any artificial pepsin, unlocks the bowels, stimulates the kidneys and tones up their mucous membranes.

So prompt is its effect in many cases that it seems to have almost a magic touch.

Begin to take it NOW.

Suffered Everything.—"I was troubled with dyspepsia, suffered everything but death, could not eat without terrible distress. Since taking Hood's Sarsaparilla I feel hearty and I am well." Mrs. Eugene Munroe, Danbury, Conn.

Eat Three Times a Day.—"Hood's Sarsaparilla cured my dyspepsia and I never felt better. Can eat three good meals every day." Fred Pozulka, 437 South Penna St., Indianapolis, Ind.

HOOD'S Sarsaparilla

Is sold by all druggists. Prepared only by C. I. HOOD & CO., Lowell, Mass.

J.M. BOSTWICK & SONS.

53 W Milwaukee St.

"I had headache and pain in the side."

If you will read the letter of Mrs. McKenzie, given below, you will find that she says: "I had uterine disease, also headache and pain in the side." Uterine disease is a common cause of headache, backache, sideache, nervousness and other womanly ills.

Dr. Pierce's Favorite Prescription cures uterine disease, and, therefore, cures the headache, sideache, etc., which result from a diseased condition of the womanly organism.

"Favorite Prescription" is the best medicine for women. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

Sick women are invited to consult Doctor Pierce by letter, free. All correspondence held in strict privacy and addressed Dr. R. V. Pierce, Buffalo, N. Y.

"I took two bottles of your 'Favorite Prescription' and two of the 'Golden Medical Discovery,' and am feeling well," writes Mrs. Dan McKenzie, of Leroy, Minn., Cape Breton Co., Nova Scotia.

"I had uterine trouble, also headache and pain in the side. After taking your medicine I got well. You may publish this or use it in any way you think best, as I cannot speak too highly of Dr. Pierce and his medicine."

Dr. Pierce's Common Sense Medical Adviser, paper covers, containing 1008 large pages, is sent free on receipt of 21 one-cent stamps, to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

GOLF CLUB PARADE WAS A STUNNER

An Advance Demonstration Well Calculated to Advertise the Minstrel Show Tonight.

If the performance to be given by the Golf club minstrels this evening is in keeping with the parade given this noon by the members of the club and the performers it will be first class.

The parade was headed by President McGiffin and Alderman Fitch, "the owners of the show," in a handsome turnout. They were followed by Colin Campbell MacLean, "treasurer of the show" in full Highland costume after whom followed the club members in red coats carrying golf clubs. Then came the performers in light colored overcoats and silk hats, carrying canes decorated with bows of old gold ribbon, one of the club colors, the Imperial Band in full uniform bringing up the rear.

It was a creditable parade in every particular and equal to any parade ever given the city by a professional company.

A pony cart filled with "little coons" was one of the attractive features of the parade.

Great interest has been taken in the performance by the members of the club and the performers and a first-class entertainment is assured for this evening.

WEATHER BUREAU CROP REPORTERS

Bulletin Service Will Begin About April 15, and Will Be More Complete Than Ever.

The work of revising the list of correspondents of the weekly crop bulletin of the weather bureau will be taken up the coming week by Section Director Willford M. Wilson and his corps of assistants at Milwaukee.

"The first issue of the bulletin for this year," said Dr. Wilson yesterday, "will be made about April 15, and thereafter each week until the close of the season. Every year at this time we revise the list of correspondents and prepare for the season's work. There are perhaps some 400 correspondents to the bulletin issued from this office, and every year some of these drop out and we have to find others to take their places and also appoint correspondents in newly settled districts, more especially in the northern part of the state."

"There will be practically no change in the appearance of the bulletin this year, unless perhaps it will be that there will be more reports given from crop centers. Our correspondents are farmers and others who understand every phase of the crop situation at different times, and their reports are for the most part very full and complete. The circulation of the bulletin is in the neighborhood of 1,200 copies weekly."

A. G. HENRY A CANDIDATE

Will Enter the Field for County Superintendent of Schools for Second District.

A. G. Henry of Afton has announced himself as a candidate for the office of county superintendent of schools for the second district of Rock county. Mr. Henry is every inch of him a true republican and if honored in the convention will undoubtedly fill the position with credit to himself and the entire county.

EXCELLENT MINSTREL PARADE

Golf Club Members Made a Very Creditable Showing This Noon.

The parade given by the members of the Golf club minstrel aggregation was held this noon and was a very creditable affair. Large crowds lined the streets and cheered the boys. This evening the entertainment will commence at 8:15 o'clock and the indications are that every seat will be taken. At a late hour this afternoon plenty of good seats were to be obtained at 25 and 50 cts. The performance will be repeated tomorrow evening.

Edward Kaufman of Edgerton underwent a successful operation for abdominal obstruction at the Palmer Memorial hospital this morning.

Dr. W. H. Palmer of this city, assisted by Drs. MacChesney and Perry of Edgerton performed the operation which so far appears to be a complete success. Mr. Kaufman is a painter by trade and appears to have had this trouble for some time.

The Woman's Foreign Missionary Society of Court St. M. E. Church, held at Mrs. W. G. Palmer's, Wednesday afternoon, was a happy success in numbers, inspiration and offerings. The pleasant day and pleasant home drew out a large number of the circle.

Miss Graham, from the Chicago Deaconess Home and Training School, was present, and gave an interesting talk. During the social time that followed the program, light refreshments were served.

Ice-Cutting Season Ends.

Kenosha, Wis., March 6.—Ice cutting on the inland lakes of Kenosha county is closed. It is said that the season's cut is the largest ever harvested in the county, over 300,000 tons of ice from 15 to 18 inches thick having been shipped, cut and stored in the ice-houses.

ELECTRICAL DEVICE TO HANDLE TOBACCO

How Cases of the Weed Are Transferred in the Warehouse of J. L. & M. F. Greene

A very effective device for saving labor and expediting the arduous task of piling cases in a tobacco warehouse may be found in the immense warehouse of J. L. & M. F. Greene on Academy street.

One of the slowest and hardest tasks around a warehouse is the piling of cases, which weigh about 350 pounds each. When it becomes necessary to handle hundreds or even thousands of cases in one shipment, the task is a great one.

Myron Greene, the resident manager of the local warehouse of the above firm, has installed a device expediting the handling of large numbers of cases in a remarkable degree. This work is now done by that mysterious force called electricity.

Pulleys are arranged at the ceiling of each floor at certain distances and a long rope works through these pulleys. The cases to be piled are run in on a certain floor and a grapple hook fastened to the cases, the other end of the rope being fastened to the elevator. When the cases are to be lifted the elevator is run down the shaft and the case carried to any desired height. When the cases are taken from a pile the operation is reversed. In this way cases are handled rapidly and with but very little expenditure of muscle on any of the four floors of the building.

Messrs. Greene have about 3,000 cases in storage for other firms and are now engaged in receiving about 600 cases from the Sylvester & Son warehouses for storage. 7,000 cases can be stored in this building, which is the largest and best equipped in every department in the state.

EFFORTS TO RAISE MONEY HARD WORK

Committee at Work on the Marzluft Proposition Keep Pegging Away Slowly.

The committee from the Business Men's association having the matter of raising a fund for the Marzluft factory in charge, are not ready to report, but are working to secure funds. The greatest trouble in the matter is that so many wish to wait to see what the other fellows are going to do. \$40,000 is quite a sum to raise and to do it, all must lend a helping hand. The task of the committee is no easy one if but few are willing to help in the work of subscriptions. Let it be a popular matter and in a short time the funds could be raised and the factory started, which is of great importance to the city. Put your shoulder to the wheel and give your fund a push. The factory must be kept in Janesville but to do it the question must be decided quickly, as some other city may get it.

AN ACCIDENT MAY COST HIM HIS LIFE

F. A. Humphrey of Shopiers, Very Badly Hurt in Moving a House—The Ladder Slipped.

F. A. Humphrey of Shopiers met with an accident yesterday afternoon that may cost him his life. He was helping move a building belonging to James Haggart of Shopiers and was up on a ladder with a crow-bar prying off an eaves trough, when the ladder slipped throwing him to the ground. He struck on his head, fracturing his skull and rendering him unconscious. He was carried to his home and Dr. Manly of Shopiers summoned. He remained unconscious most of the night but was conscious this morning with a fair show of recovery.

Mr. Humphrey is about sixty-five years of age and has resided in this county for many years. He has a wife and one married daughter.

SALVATION ARMY SPECIAL MEETING

This Evening a Grand Union Meeting Will Be Held at the Congregational Church.

The local branch of the Salvation Army is holding special meetings at its barracks on North Main street this week and much enthusiasm is manifest. The local corps is strengthened by the coming of fourteen delegates from other parts of this state and Illinois.

Last evening a rousing meeting was held and one convert was brought to the fountain of life. The meeting was largely attended and the Spirit of God was manifest.

This afternoon a holiness meeting will be held at the barracks led by Col. Marrett, of Minneapolis, assisted by Maj. Glenn of Milwaukee.

This evening a grand union meeting will be held at the Congregational church in which all the evangelical churches of the city will unite.

The local corps consists of ten persons, who, with the visiting delegates make a working army of about 25 persons and their efforts will doubtless result in much good.

H. S. Hogboom died recently in California, was an old resident of this city and for many years resided on South Franklin street in the house now owned by W. S. Jeffris. While here he was engaged in the wood and coal business with Charles Atwood under the firm name of Hogboom and Atwood.

After leaving the city he went to Minnesota where he engaged in farming for several years. His wife is a sister of the late Mrs. M. M. Phelps of this city. His son Frank was in the employ of J. M. Bostwick & Sons for some time but is now in business in New York City.

NEWS OF A PERSONAL NATURE

H. W. Child of Edgerton transacted business in town today.

Regular meeting of Laurel Lodge D. O. H. at East Side Odd Fellows hall this evening at 7:30 o'clock sharp.

Mr. and Mrs. John E. Connors have welcomed a baby girl to the family circle.

Miss Bertha Vanderlyn of Clinton is visiting friends and relatives in this city.

Joseph Hogan arrived home yesterday from an extended visit in Florida.

Mr. and Mrs. F. F. Williams returned from a visit this morning in Argyle, Wis.

L. B. Carle and son received a car of tobacco from northern Dane county this morning.

O. R. Pomeroy returned to his home in Edgerton this morning, after a visit in this city.

W. W. Emmons and daughter left this morning for a ten days' visit at Belleville, Ont.

Charles Yates departed on a trip this morning in the southwestern part of the state.

C. B. Salmon and Edward Salmon of Beloit were in the city today on the case of Salmon vs. Greig in the circuit court.

A. S. Jackson of Beloit, the contractor for the erection of the soldiers' monument was in the city today looking after the work.

Joseph G. Carr returned to his home in Milton Junction this morning. He is on the petit jury and has been dismissed until Tuesday.

Drs. H. B. Johnson of Beloit and W. H. Borden of Milton are in the city today attending a meeting of the board of pension examiners.

A. W. Hush, of Grand Rapids, architect of the city hall and James Rowson of Iowa City are in the city on business connected with the building.

Deputy Not to Tax Farmer 2-1-1-1.

St. Paul, Minn., March 6.—By a vote of 9 to 4 the tax committee of the state senate decided to report adversely the Jackson bill for the taxation of corporations, which was passed by the house last week after the bill recommended by the tax commission had been defeated.

Funeral to Commemorate Department.

Washington, March 6.—Major General Frederick Funston, who distinguished himself and earned promotion by the capture of Aguirre, is said to be slated for the command of either the Department of Colorado or that of Texas.

Manufacturers' Meeting Postponed.

Memphis, Tenn., March 6.—The meeting of the National Wagon Manufacturers' association, which was to have been held in Memphis during the first week in April, has been postponed until October.

DANDERINE

Corrects All Disorders of
Both the Hair and Scalp.

MABEL MORRIS, 1435 PARK AVE., CHICAGO.

CHICAGO, Feb. 3, 1902. Gentlemen: Before I commenced using Danderine my hair was very thin and it would come out by the handfuls when I combed it. It was also dry and brittle and fell out. The Danderine seemed to revive it almost at once. I now have thicker and much longer hair than I ever had, and it is still growing rapidly.

Yours truly, Mabel Morris.

1435 Park Ave., 2nd Fl.

There is no reason why anyone should not have beautiful hair, now that there is a remedy. Danderine makes hair beautiful. It makes the scalp healthy and productive. Such scalp produces hair and a satisfactory amount of it. Danderine acts specifically in all hair and scalp affections. Its applications are healing, cooling and very invigorating. Get a 25c. bottle and use it as directed. It is the only remedy ever discovered that will stop hair falling and insure its growth. Results are seen at once. NOW at all druggists in three sizes, 25c., 50c. and \$1.00 per bottle. Be sure you get the genuine.

FREE to show how quickly Danderine acts, The Knowlton Danderine Co., Chicago, will send a large sample free by return mail to anyone who sends us this advertisement with their name and address and 10c. in silver or stamps to pay postage.

MIDST MANY MIRACLES.

Were Hundreds Who Witnessed the
Greatest, Grandest and Most
Marvelous Cures Ever Effect-
ed in This City.

The Boy Phenomenon Greeted With
Thunders of Applause as he
Made the Blind See, the Deaf
Hear and the Lame Walk.

Janesville is Wild With Excitement and
the Boy Phenomenon and His Wonder-
ful Magnetic Power the Cause.

Again, last night, was the Myers Grand Opera House crowded with our best citizens. News of the wonderful cures performed by the Boy Phenomenon at his previous demonstration traveled fast and far, and long before the time of opening a surging mass of humanity was congregated in front of the house.

While it was the second public demonstration, the excitement was greater and more interest was manifested than on the previous occasion.

The wonderful exhibition of restoring to health a score or more of deformed and afflicted persons by the Boy Phenomenon was a sight never to be forgotten. Truly, indeed, were the lame given the use of their limbs, the deaf made to hear, the blind to see, and other chronic diseases succumbed to this wonderful power.

One of the many wonderful cures performed last night was on Mr. Andrew J. Lusk, a well known citizen, who has been afflicted with rheumatism, entire body, had been in bed for seven weeks. He was assisted to the stage by the usher, and the dealer began his magic manipulations which consisted merely of a succession of gentle rubbings and light, dexterous tappings of the affected parts. But the results were magical and startling. At every touch of his magnetic hands the effort was visible on the countenance of the patient. The rubbing occupied less than three minutes, but in that short time he was able to rise and walk across the stage and back to his seat, greatly benefited, and going through other actions, which, he stated, he could not have done five minutes previous for all the money in the world.

For over an hour such scenes were repeated, during which time nearly a score of cases were treated, of as many different diseases, each case seemingly worse than the preceding one, and the results obtained were more gratifying and successful. It was the most marvelous demonstration of magnetic healing ever accomplished in this section of the country.

There was a day when magnetism as a curative agent was doubted, but that day has passed. The Boy Phenomenon has effected so many remarkable cures of well known citizens that cannot be disputed. They have been witnessed by thousands of people, besides nearly every doctor in the city, who are now compelled to admit that Vital Magnetism does cure the afflicted.

The Boy Phenomenon will remain in Janesville, at Myers Hotel, two weeks only, where private reception rooms have been engaged. Those desiring private consultation by the chief physician or treatment may obtain the same by calling daily from 10 a. m. to 5 p. m., entering the ladies' private entrance, Myers Hotel.

CASHIER KILLS HIMSELF.

Frank W. Cottle of Elkhart Blows Off His Head with a Revolver.

Elkhart, Ind., March 6.—Frank W. Cottle, whose accounts as cashier of the State Bank of Elkhart are short \$32,000, committed suicide. Securing a revolver from the room of his son he placed the muzzle of the weapon in his mouth and pulled the trigger, the discharge tearing away the side of his head.

A committee representing the stockholders of the bank went to Springfield and held a conference with Attorney General Hamlin. The result of the conference was that the committee decided to levy an assessment upon the stockholders sufficient to make good the shortage. It is estimated that an assessment of 82 per cent will be necessary.

Miners Discuss Scales.

Peoria, Ill., March 6.—The joint scale committee of miners and operators reported failure to agree to the convention and a new committee of one miner and one operator from each district was appointed and will try to settle the matter. Williamson county, Etherly, Kewanee and the Peoria and Canton district have not been agreed upon, and but five out of the eighteen articles governing mines have been settled.

Des Moines, Ia., March 6.—The Iowa miners took up the scale question. The discussion will probably continue until the joint conference with the operators March 11. The miners insist on the employment of shot-drillers and a "mine-run" scale. They voted unanimously to establish permanent head offices at a central location, probably at Albia or Oskaloosa, and to place officers on salary.

Shot by an Alderman.

St. Louis, Mo., March 6.—Thomas ("Snake") Kinney, member of the house of delegates from the fourth ward, entered a restaurant at Union Market and after a few words shot and seriously injured Daniel Shea, who was at breakfast. Kinney was arrested and admitted to bond in \$5,000. Shea had formerly belonged to the Kinney gang or ward politicians, but recently deserted it and went over to the rival faction. Four men have been killed and three seriously injured as a result of this party fight.

Smallpox at Centralia.

Centralia, Ill., March 6.—Because of the seriousness of the smallpox situation Mayor Rahl has appealed to the state board of health. The disease has been coming into the city for eighteen months from country districts and has been well handled, but in the last few days it has broken out in all parts of the city and is reported from several neighboring townships.

Indiana Bank Robbed of \$10,000.

Washington, Ind., March 6.—The First National Bank of Montgomery, eight miles east of this city, was entered by safe breakers, the vault was blown open with dynamite and \$10,000 in cash and bonds was stolen. Citizens feared to attack the robbers, who had all approaches under guard. The robbers escaped on a hand car. The loss is covered by insurance.

Supply Insurgents with Arms.

Victoria, B. C., March 6.—The Manila American, copies of which have just been received, says it has very good reasons for believing that recently a vessel flying the German flag landed Mauser rifles on the coast of Batangas for the use of the insurgents. It is said that the shipment comprised seventy cases, or about 1,400 rifles, with ammunition.

Professor Harris Appointed.

Appleton, Wis., March 6.—Professor N. Dwight Harris has received and accepted the appointment to the new chair of constitutional history at Lawrence university, and will take up his duties next September. Mr. Harris is a graduate of Yale, having received the degree of doctor of philosophy with the class of '95.

BROUGHT TO LIGHT.

Janesville People Receiving
The Full Benefit.

There have been many cases like the following in Janesville. Everyone relates the experience of people we know. These plain, straight, forward statements will do much toward relieving the suffering of thousands. Such testimony will be read with interest by many people.

Mr. E. T. Fish, of 355 Racine St. proprietor of the Fish Dry Line, says: "When I was twenty years of age I fell injured my back, and ever since that I was troubled more or less with a dull, aching pain across the loins. It never laid me up but it was often painful and annoying. Of late years I have gone to a physician every six months and had myself thoroughly examined under the impression that there might be something wrong with my kidneys. The diagnosis always resulting in the physician claiming these organs were sound, but as the pains existed when I happened to notice in our Janesville papers that Doan's Kidney Pills were guaranteed to cure just such troubles, I procured a box at the People's Drug Co.'s store, and took them. Doan's Kidney Pills are a good preparation. My back has not ached since I used them. I have heard others speak very complimentary of them and if I did not know their merit and required such a medicine I would consider it a favor for some one suggested their use to me. For this reason I endorse them."

For sale by all dealers. Price, 50 cents. Foster-McMillan Co., Buffalo, N. Y. Sole agents for the U. S. Also on sale at King's Pharmacy.

Remember the name, Doan's, and take no other.

Kodol

Dyspepsia Cure

Digests
what you
Eat

You might as well put fuel under a boiler without burning it and expect the engine to run, as to eat food and not digest it and expect to keep up nourishment for your body. You must have nourishment to live and when you cannot digest your food, Kodol Dyspepsia Cure will do it for you, with no aid whatever from the stomach. It contains exactly the same elements as Nature's digestive fluids and can't help but produce the same results.—David Taylor, Blind Ridge, Pa., writes:—"I have been afflicted for a number of years with dyspepsia and have tried various remedies without good results but was cured by one bottle of Kodol Dyspepsia Cure. I cannot say too much in its favor."

It can't help but do you good

Prepared by E. C. DeWitt & Co., Chicago. The \$1. bottle contains 2 1/2 times the 50c. size. When you need a soothing and healing application for piles, sores and skin diseases, use DeWitt's Witch Hazel SALVE. Beware of counterfeits. Above Preparations sold by McCUE & BUSS

Strike in St. Louis.

St. Louis, March 6.—As a result of a cut in wages between three and four hundred trunk and bag workers employed in the four leading factories of St. Louis are on a strike. The men assert that the cut, ranging from 5 cents to \$3, according to the work, is an attempt by the association to disrupt the union.

Condensed Milk Trust.

Lansing, Mich., March 6.—The title to the Lansing property of the Michigan Condensed Milk company is being inquired into preparatory to the formation of a condensed milk trust, the details of which, it is understood, have already been arranged, and which will take in all the large factories in the country.

French Miners Decide to Strike.

Alais, France, March 6.—The National Congress of French miners has passed a resolution by a vote of 121 to 105 to the effect that the miners must proceed to obtain an eight-hour day by an immediate general strike, without further negotiation with the government.

KING'S PHARMACY AND PEOPLE'S DRUG CO

KING'S DAUGHTERS HOLD A BANQUET

Church Parlor Were Handsomely
Decorated for the Occasion—
Called a Color Supper.

Last evening the Kings' Daughters of the Baptist church held their annual meeting and banquet at the parlor of the church. The rooms in the basement had been handsomely decorated and transformed into a capacious banquet room, and those having the matter in charge spared no effort to make the affair a success in all that the word implies.

There were eight tables divided between four committees, each committee having a special color, the colors being green, pink, red and yellow. Upon entering the room the effect of the decorations were marvelous and pleasing.

On the north side, were the yellow tables and everything about them had an aspect of yellow. Mrs. E. C. Bailey had the care of those tables and she performed her duties to perfection. Mrs. Bailey proved to be an adept at decorating. Over her main table lamp center piece, the shades of which were mammoth umbrellas, profusely decorated with flowers. On each plate was a yellow napkin.

Mrs. Otto F. Meltzer presided over the red tables and the decorations were harmonious combinations of red. Mrs. John Huntress had charge of the committee at the pink tables and was frequently complimented on the beauty of her tables.

Mrs. Theo. W. Goldin presided at the green tables and her decorations were no less effective than those of the other tables. She displayed great skill in the tasteful manner of all arrangements and details.

The banquet was what is called a color supper and the several ladies having the matter in charge are masters in the art of color effect. Each of the assistants wore a bow of ribbon the same color as prevailed at their tables.

ABOUT CATARRH CURES.

The Reason Why Inhalers and Local Applications are Useless.

For many years catarrh was considered a local disease and was treated entirely by local remedies, salves, ointments, powders, sprays and inhalers, and nearly all of these gave a temporary relief, but a genuine permanent cure was very rare.

It is true the most annoying symptoms, like stoppage of the nose and throat trouble, are purely local, but they are simply symptoms and the real seat of disease is far removed.

Catarrh is a constitutional disease, a blood disorder, complicated usually with disease of the liver and to suppose that local applications of sprays, powders, inhalers, could ever reach the real cause of the trouble is ridiculous.

The sensible and successful treatment is to remove the catarrhal poison from the system by regulating the liver and purifying the blood, and this can only be done by an internal remedy, which should consist of antiseptics and remedies to act vigorously on the blood and liver.

The best preparation of this kind which fills all the requirements of a safe constitutional treatment is Stuart's Catarrh Tablets, composed of Blood Root, Red Gum and similar wholesome antiseptics which are absolutely safe to take into the stomach and which act upon the liver, stomach and mucous membrane.

Stuart's Catarrh Tablets are large, pleasant tasting lozenges to be slowly dissolved in the mouth, thus reaching the mucous membrane and windpipe and finally reaching the stomach.

Dr. Edmundson, in speaking of the new treatment for catarrh, says: "I have accomplished the most satisfactory results in all forms of catarrh of the head, throat, bronchial tubes, as well as catarrh of the stomach and liver by using nothing else but Stuart's Catarrh Tablets. I long since threw aside sprays and inhalers as being inconvenient and at the best mere temporary make-shifts. Stuart's Catarrh Tablets act immediately upon the liver and blood and clear the whole system of catarrhal poison. They are pleasant and very convenient to use, and they are not only the latest, but I believe them to be the best and certainly the safest treatment for any form of catarrh."

All druggists sell Stuart's Catarrh Tablets at 50 cents for full sized package. A little book on cause and cure of Catarrh mailed free by addressing the F. A. Stuart Co., Marshall, Mich.

Coal Gas Kills Three
Oconomowoc, Wis., March 6.—The lifeless bodies of Mr. and Mrs. Thomas McLaughlin and Mrs. Margaret McDermott, an aged woman who boarded with them, were found by neighbors. The room was filled with gas and an open door in the coal stove indicated that death was due to asphyxiation.

Five Men Drowned.
Sacramento, Cal., March 6.—Dr. J. H. Morton, George Nunes, Clarence Casterson, Elmer Ivory and Knight Illington were drowned in the Sacramento river.

TINPLATE MEN ABOLISH STRIKES

Peace Pact Result of Conference Between Officers and Managers.

AFFECTS OVER 100,000 MEN

President Shaffer Calls It the Greatest Deal Ever Effected with Capital in the History of the Working People—Brill Will Run All the Year.

New York, March 6.—An agreement has been reached between the American Tinplate company and the Amalgamated Association of Iron and Steel Workers, which, according to President Shaffer of the association, is the most important agreement ever entered into between representatives of capital and labor. The agreement will prevent a possible strike, involving nearly 100,000 persons, and will result in the mills keeping open all summer.

Representatives of the company and a delegation of the Amalgamated association have been in conference here for ten days. The present scale of wages and hours was extended to July 1, 1903. President Shaffer, speaking of the agreement, said:

"The American Tinplate company, through W. B. Leeds, its first vice-president, asked before the conference that I appoint a committee to meet the representatives of the company. This request was complied with. The purpose of the company was to secure if possible, the uninterrupted operation of its plant during the summer months, when the annual scale is formulated, and means practically a continuous scale. The scale rates offered by the American Tinplate people are those of the present year, and are satisfactory to our members. The result is that there is now an agreement which will prevent the closing of the mills or plant of the American Tinplate company, and which will render a strike impossible.

"The committee also consented, as a precedent had been established, in arranging a continuous scale with the Republic Iron and Steel company. The magnitude of the deal may not be realized, but it is the greatest that has ever been effected with capital in the history of the working people."

San Francisco, Cal., March 6.—After nine and a half months the strike of the ironworkers of this city, begun on May 1 of last year, to enforce a demand for a nine-hour day, has come to a formal end. Two-thirds of the unions composing the Iron Trades council have acted upon a recommendation made by that body to allow their members to return to work. Within the next week between 2,000 and 3,000 men will be employed.

From good authority the intimation comes that the men accept slight concessions and complete a temporary settlement on condition that the national federation will soon adjust the working conditions in the iron trades generally throughout the country.

British Seeking Cuban Trade.
London, March 6.—A conference of representatives of the chambers of commerce of London, Liverpool, Manchester, Belfast, Edinburgh and other places has resolved to take immediate action to maintain the "most-favored-nation" treatment for Great Britain in regard to Cuba. Every chamber in the United Kingdom will be invited to send delegates to a deputation that will visit Lord Lansdowne, the foreign secretary, on Tuesday next, to lay the matter before the government.

Stuart's Catarrh Tablets are large, pleasant tasting lozenges to be slowly dissolved in the mouth, thus reaching the mucous membrane and windpipe and finally reaching the stomach.

Dr. Edmundson, in speaking of the new treatment for catarrh, says: "I have accomplished the most satisfactory results in all forms of catarrh of the head, throat, bronchial tubes, as well as catarrh of the stomach and liver by using nothing else but Stuart's Catarrh Tablets. I long since threw aside sprays and inhalers as being inconvenient and at the best mere temporary make-shifts. THE
CLEANSING
AND HEALING
CURE FOR

CATARRH

is
Ely's Cream Balm

Easy and pleasant to
use. Contains no in-
jurious drugs.

It is quickly absorbed,
gives relief at once,
it opens and cleanses
the nasal passages,
allays inflammation,
breaks and restores the membrane. Restores the
sense of taste and smell. Large Size, 50 cents at
Druggists or by mail; Trial Size, 10 cents by mail.

Pianos Are Like People.

Some that look the strongest and best last the shortest time. When you invest the money it takes to buy any kind of a piano, you want to be sure there is endurance in the instrument. The tone quality is in our Hardman Piano to stay. If yours is not satisfactory in staying qualities you can have your money back.

Our \$10 plan should interest you.
